TransAct to Demonstrate Full Suite of Advanced Technology and Printer Solutions for the Global Casino, Gaming and Lottery Markets at G2E Asia 2018

May 8, 2018

Proven Epic Printers and Powerful Epicentral Bonusing System on Display

HAMDEN, Conn.--(BUSINESS WIRE)--May 8, 2018-- TransAct Technologies Incorporated (Nasdaq: TACT) ("TransAct" or "the Company"), a global leader in software-driven technology and printer solutions for high-growth markets, announced today that the Company will demonstrate a full lineup of solutions for the global casino, gaming and lottery industries at G2E Asia 2018, to be held at the Venetian Macao on May 15-17, 2018 in Macao. The Company's showcase at G2E Asia 2018 (Stand #719) will include a full lineup of its Epic ticket-in/ticket-out ("TITO") printers, TransAct's current fully-featured and systems versions of Epicentral along with its Epic roll-fed printers for the global gaming and lottery industries.

"The Asian gaming market continues to thrive and as gaming expansion into Japan nears reality, TransAct is well positioned to capitalize and build on its market-leading position as a one-stop provider of industry-leading technology and printer solutions for global casino, gaming and lottery operators," said Bart C. Shuldman, Chairman and Chief Executive Officer of TransAct Technologies. "Our entire team is excited to return to Macao where we will demonstrate our best-in-class portfolio of solutions for casino slot floors, gaming machines and lottery installations along with our deep commitment to the industry and unmatched customer service. In particular, our market-leading Epic TITO printers, two unique versions of our Epicentral promotion and bonusing print system and our proven Epic roll-fed printers will be the centerpiece of our presence at G2E Asia 2018 as we help our customers throughout Asia improve their businesses."

Epic: THE Name in Ticket-In/Ticket-Out Printers

TransAct's best-in-class lineup of Epic TITO printers on display at G2E Asia 2018 (Stand #719) will include the advanced Epic Edge, the industry-leading Epic 950 and its purpose-built Epic Edge TT and Epic 950 TT table top printers. The next-generation Epic Edge is built on the proven long-term performance of the industry-leading Epic 950 and is designed so that both printers can be easily run side-by-side. In addition, the high-resolution print capabilities of the Epic Edge can replicate a nearly unlimited array of characters and graphics, making this latest TITO printer an ideal fit for casino operators in Asia. Attendees will get a clear look at the unmatched reliability of the Epic Edge and Epic 950, both of which are designed to simplify casino operations and improve floor performance.

TITO solutions on display will include:

- **Epic Edge** – This next-generation casino ticket printer offers 300 dpi print resolution, a 50% improvement over current printers, allowing for razor sharp barcodes that improve bill validator acceptance and reduce attendant calls. It also includes an adjustable ticket bucket that accommodates standard tickets and smaller, paper-saving tickets. Additional unique features include a single rugged outer chassis with color coded rails and Serial, USB and Netplex ports, hot swap capability to eliminate game downtime, two high-speed interfaces (USB and Micro SD) for simple updates, and a faster ServerPort™ connection.
- **Epic 950** – The current industry-standard for TITO printing, TransAct's Epic 950 delivers proven performance in over 500,000 slot machines worldwide. Easily integrated into all game types, the Epic 950 features TicketBurst™ technology to eliminate player/ticket interference and is fully compatible with Epicentral to provide for the direct, real-time delivery of eye-catching personalized promotions and bonus offers.
- **Epic Edge TT™ and Epic 950 TT™** These unique, purpose-built printers take the power of the advanced Epic Edge and proven Epic 950 outside the slot machine and on to table games, players' club desks and cash desks. They package a printer, internally mounted power supply and ServerPort in a tidy, compact design that is easy to deploy. In addition, thanks to their dual port capability, the Epic Edge TT and Epic 950 TT allow operators to expand the bonusing environment created by their Epicentral deployments to non-gaming device applications.

Epicentral Delivers Casino Revenue Growth

Epicentral has been the gaming industry's only enterprise-level promotion and bonusing software solution for more than five years. It allows operators to easily target and provide printed bonuses in real-time to players while they play on the casino floor. Epicentral and the Epicentral Systems Edition ("Epicentral SE") will return to G2E Asia 2018 to demonstrate how they are successfully "Delivering Casino Revenue Growth" for casinos around the globe. Epicentral effectively bridges the gap between the slot machine and the reward of the printed ticket, allowing operators to drive increased customer visitation and play with ease.

Epicentral v3.9, the latest version of this industry-unique solution, offers users a host of features that build on a proven track record of driving increased time on device and revenue. Innovative features on display will include the ability to run multiple promotions at the same time, create games within games, run different promotions on different slot game banks, segment players by tier, promote to different levels of uncarded players and leverage its real-time capabilities to improve operator decision making through detailed activity reports. Epicentral v3.9 also dramatically improves the player experience by allowing for the redemption, printing and re-printing of bonuses at multiple locations.

Casino operators are keenly aware of the need to differentiate themselves through their bonus offerings as they compete for player attention and business. While printed bonuses have historically been offered for player loyalty programs through direct mail or an in-casino host, Epicentral SE

allows operators to leverage their existing systems to expand bonus capabilities to the gaming device. Epicentral SE easily turns current promotions into printed coupons thanks to the power of Epicentral's Print Manager and Design Center modules. The system can print and deliver free play vouchers directly to players which can be redeemed at the slot machine. It also presents operators with an upgrade path to a full Epicentral system implementation to take the in-casino bonus environment to a whole new level.

Epic Roll-Fed Printers: A One-Stop Shop

TransAct is a one-stop shop for gaming and lottery operators, offering a complete lineup of Epic roll-fed printers. The Company's Epic roll-fed printers have delivered industry-leading dependability and capabilities for more than 20 years and the full array of roll-fed printers on display at G2E Asia are ideal for use in the variety of gaming devices around the world as well as in self-service kiosk and lottery applications.

Gaming and lottery roll-fed solutions on display will include:

- **Epic 880®** – This compact printer for all types of gaming machines (including amusement with prizes, skill with prizes and video lottery terminals) features a modular design that is configurable to nearly any space, a variable length ticket presenter and ticket retract capability. It also offers auto paper loading and can accommodate 4-inch or 6-inch paper rolls.
- **Epic 430®** – An easy-to-configure modular design makes the Epic 430 ideal for customer self-service kiosks. This printer features variable length tickets with graphics and coupons capabilities, quick paper roll changes, a fast print speed and an array of standard paper sensors.
- **Epic 3000®** – The Epic 3000 has been delivering fast, proven performance for the lottery industry for more than 20 years across thousands of locations. It offers a number of industry-unique features, including an anti-jam front paper exit for reliable operation, the ability to print and stack up to 100 tickets without shuffling, a large 7.5-inch diameter paper roll, and the only full tool steel rotary cutter.

Forward-Looking Statements

Certain statements in this press release include forward-looking statements. Forward-looking statements generally can be identified by the use of forward-looking terminology, such as "may", "will", "expect", "intend", "estimate", "anticipate", "believe" or "continue" or the negative thereof or other similar words. All forward-looking statements involve risks and uncertainties, including, but not limited to, customer acceptance and market share gains, both domestically and internationally, in the face of substantial competition from competitors that have broader lines of products and greater financial resources; our competitors introducing new products into the marketplace; our ability to successfully develop new products; our dependence on significant customers; our dependence on significant vendors; dependence on contract manufacturers for the assembly of a large portion of our products in Asia; our ability to protect intellectual property; our ability to recruit and retain quality employees as the Company grows; our dependence on third parties for sales outside the United States, including Australia, New Zealand, Europe, Latin America and Asia; the economic and political conditions in the United States, Australia, New Zealand, Europe, Latin America and Asia; marketplace acceptance of new products; risks associated with foreign operations; the availability of third-party components at reasonable prices; price wars or other significant pricing pressures affecting the Company's products in the United States or abroad; risks associated with potential future acquisitions; our new line of food safety and oil and gas products driving increased adoption by customers; and other risk factors detailed from time to time in TransAct's reports filed with the Securities and Exchange Commission. Actual results may differ materially from those discussed in, or implied by, the forward-looking statements. The forward-looking statements speak only as of the date of this release and the Company assumes no duty to update them to reflect new, changing or unanticipated events or circumstances.
