

TransAct Secures Largest BOHA!® WorkStation Order Yet

May 11, 2022

Order for 140 WorkStations is expected to generate Annual Recurring Revenue Per Unit of approximately \$1,000

HAMDEN, Conn.--(BUSINESS WIRE)--May 11, 2022-- TransAct® Technologies Incorporated (Nasdaq: TACT) ("TransAct" or "the Company"), a global leader in software-driven technology and printing solutions for high-growth markets, today announced that it has secured its largest BOHA! WorkStation order yet, representing 140 units. The company expects to deploy all 140 WorkStations in the third quarter of 2022.

"I am thrilled to announce this deal with a new customer in the grocery market as we execute on new business opportunities in the Food Service Technology Market. I look forward to welcoming this customer onto our industry leading BOHA! platform and working together to solve their operational challenges," said Bart C. Shuldman, CEO of TransAct Technologies.

The complete system deployment will initially include the BOHA! WorkStation, BOHA! Labeling software, proprietary BOHA! labels and service. TransAct estimates total annual recurring revenue per unit ("ARPU") will be approximately \$1,000 per year.

BOHA! is the first single-vendor cloud-based enterprise system to combine applications for Food Safety, Date Code and Grab n' Go Labeling, Temperature Monitoring of Food and Equipment, Checklists & Task Management, Inventory Management, Timers, and Food Recall, in one integrated platform. Each BOHA! solution combines cloud-based SaaS applications with hardware and accessories to deliver superior results for critical back-of-house operations. BOHA! offers a one-stop solution for restaurants, convenience stores and food service companies to address their current back-of-house operating requirements while providing a future-ready platform capable of addressing back-of-house operations.

Forward-Looking Statements

Certain statements in this press release include forward-looking statements. Forward-looking statements generally can be identified by the use of forward-looking terminology, such as "may", "will", "expect", "intend", "estimate", "anticipate", "believe", "project", "plan", "design", or "continue", or the negative thereof, or other similar words. All forward-looking statements involve risks and uncertainties, including, but not limited to, the adverse effects of the COVID-19 pandemic, related vaccination rates and the emergence of virus variants on our business, operations, financial condition, results of operations and capital resources, including difficulties or delays in manufacturing or delivery of inventory or other supply chain disruptions, shutdowns and/or operational restrictions imposed on our customers, an inability of our customers to make payments on time or at all, diversion of management attention, necessary modifications to our business practices and operations, cost cutting measures we have made and may continue to make, a possible future reduction in the value of goodwill or other intangible assets, inadequate manufacturing capacity or a shortfall or excess of inventory as a result of difficulty in predicting manufacturing requirements due to volatile economic conditions, price increases or decreased availability of component parts or raw materials, exchange rate fluctuations, volatility of and decreases in trading prices of our common stock and the availability of needed financing on acceptable terms or at all; our ability to successfully develop new products that garner customer acceptance and generate sales, both domestically and internationally, in the face of substantial competition; our reliance on an unrelated third party to develop, maintain and host certain web-based food service application software and develop and maintain selected components of our downloadable software applications pursuant to a non-exclusive license agreement, and the risk that interruptions in our relationship with that third party could materially impair our ability to provide services to our food service technology customers on a timely basis or at all and could require substantial expenditures to find or develop alternative software products; our ability to successfully transition our business into the food service technology market; risks associated with potential future acquisitions; general economic conditions; our dependence on contract manufacturers for the assembly of a large portion of our products in Asia; our dependence on significant suppliers; our ability to recruit and retain quality employees as the Company grows; our dependence on third parties for sales outside the United States; our dependence on technology licenses from third parties; marketplace acceptance of new products; risks associated with foreign operations; the availability of third-party components at reasonable prices; price wars or other significant pricing pressures affecting the Company's products in the United States or abroad; increased product costs or reduced customer demand for our products due to changes in U.S. policy that may result in trade wars or tariffs; our ability to protect intellectual property; the effect of the United Kingdom's withdrawal from the European Union; and other risk factors detailed in the Company's Annual Report on Form 10-K for the year ended December 31, 2021, and other reports filed with the Securities and Exchange Commission. Actual results may differ materially from those discussed in, or implied by, the forward-looking statements. The forward-looking statements speak only as of the date of this release, and the Company assumes no duty to update them to reflect new, changing or unanticipated events or circumstances, except as required by applicable law.
