

TransAct Technologies Receives Another Patent for Its Stacker Technology

WALLINGFORD, Conn., Aug. 30 /PRNewswire-FirstCall/ -- TransAct Technologies Incorporated (Nasdaq: TACT - News), a leading producer of transaction-based printers for customers worldwide, today announced that it was awarded U.S. patent no. 6,929,416 for its patent application related to "Stacker for a Printer" technology. This patent is a division of TransAct's earlier U.S. patent no. 6,827,515, which relates to apparatus for automatically stacking printed sheets from a printer. Bart C. Shuldman, Chairman, President and CEO of TransAct Technologies, said, "Our printer stacker technology is critical for applications in gaming and lottery where multiple receipts or tickets must be printed one after another. The new patent, which expands on a patent we were granted last year, relates to a printer that has a cutting station for severing a sheet from a supply spool, in which a kicker element drives the severed sheet out of the cutting station. We work hard to develop the latest technologies that fulfill the needs of our customers. This additional patent from the U.S. Patent and Trademark Office further strengthens our competitive advantage and protects our investment in new technologies."

About TransAct Technologies Incorporated

TransAct (Nasdaq: TACT - News) designs, develops, manufactures and markets transaction-based printers under the ithaca® name. In addition, the Company markets related consumables, spare parts and service. The Company's printers are used worldwide to provide receipts, tickets, coupons, register journals and other documents. TransAct focuses on two core markets: point-of-sale (POS) and banking, and gaming and lottery. TransAct sells its products to original equipment manufacturers, value-added resellers and selected distributors, as well as directly to end-users. The Company's product distribution spans across the Americas, Europe, the Middle East, Africa, the Caribbean Islands and the South Pacific. Forward-Looking Statements: Certain statements in this press release include forward-looking statements. Forward-looking statements generally can be identified by the use of forward-looking terminology, such as "may," "will," "expect," "intend," "estimate," "anticipate," "believe," "project" or "continue" or the negative thereof or other similar words. All forward-looking statements involve risks and uncertainties, including, but are not limited to, customer acceptance and market share gains, both domestically and internationally, in the face of substantial competition from competitors that have broader lines of products and greater financial resources; introduction of new products into the marketplace by competitors; successful product development; dependence on significant customers; dependence on significant vendors; the ability to recruit and retain quality employees as the Company grows; dependence on third parties for sales outside the United States, including Australia, New Zealand, Europe and Latin America; economic and political conditions in the United States, Australia, New Zealand, Europe and Latin America; marketplace acceptance of new products; risks associated with foreign operations; availability of third-party components at reasonable prices; price wars or other significant pricing pressures affecting the Company's products in the United States or abroad; and the outcome of lawsuits between TransAct and FutureLogic, Inc. Actual results may differ materially from those discussed in, or implied by, the forward-looking statements. The forward-looking statements speak only as of the date of this release and the Company assumes no duty to update them to reflect new, changing or unanticipated events or circumstances.
